

## SP Series

SP series are constructed with multi-layers depth filter cartridges and manufactured by melt blown process. The melt blown cartridges feature graded density construction, which captures particles throughout the entire cross section of the cartridge and reduces surface blinding, which can occur in string wound cartridges.

## Features & Benefits

- FDA Compliant Production Facility
- ISO 9001 Certified Facility
- Pure Polypropylene Construction

## Operation conditions

- Maximum operating temperature: 52°C
- Maximum operation forward pressure : 20 °C 3.2 kg/cm<sup>2</sup>
- Recommended replaceable pressure drop: 1.5 kg/cm<sup>2</sup>

## Applications of product

- Removal of Sediment from water

## Product specifications

- Micron ratings: normal 1,5,10, 25
- Materials of construction: 100% Polypropylene
- Length: 9.87", 10", 20" , 30" , 40"
- Inside diameter: 28 mm
- Outside diameter: 63 mm
